NOTES & CONDITIONS

1. Use only with nylon tools and utensils to protect the interior coating and maintain manufacturer's warranty.
2. Allow cookware to cool completely before washing. Clean with warm, soapy water and a soft sponge or cloth. Avoid using abrasive scrubbers or harsh cleaners, as they may scratch or damage the ceramic coating.
3. Although our ceramic cookware is dishwasher safe, we recommend hand washing to preserve the non-stick surface and extend the product's lifespan.
4. Although stacking not recommended, if stacking is necessary, place a soft cloth or Spring USA insert between each piece to protect against scratches and chips.
5. Store your Spring USA Professional ceramic cookware in a cool, dry place. Do not place heavy items on top of vessels, as this may cause cracking or chipping.
