LED Wall Pack

Product Specifications

TCP's non-cutoff LED Wall Pack combines the look of a traditional wall pack with the benefits of LED. An efficient alternative to HID, these wall packs deliver bright, uniform light while providing energy savings. A long 50,000 hour rated life significantly decreases maintenance labor and material costs over the life of the fixture.

The robust die-cast aluminum housing incorporates an impact-resistant polycarbonate lens. An integrated photocell is optional for dusk-to-dawn control. An integrated microwave motion sensor is optional for increased power savings. The wall pack mounts directly to a standard junction box for easy retrofit of traditional fixtures.

Reasons to choose the LED Wall Pack from TCP

- Energy efficient – Uses less energy than traditional fixtures, resulting in instant energy savings
- Long 50,000 hour rated life minimizes replacements and reduces overall labor costs throughout the life of the fixture
- UL approved for wet locations
- Durable die-cast aluminum housing with impact-resistant polycarbonate lens protects the LED in harsh environments

Ideal Applications

- Site Lighting
- Security Lighting
- Entrances
- Perimeters

Applications

This product family can be effectively used in outdoor wall mount locations in commercial, industrial, retail and institutional exterior lighting (i.e., parking lot, cargo door, high wall, area, security, etc).

Construction

- Die-cast aluminum housing
- Impact-resistant polycarbonate lens
- Durable dark bronze powdercoat
- Same footprint as existing HID wall packs
- Operating Temperature: -20°C to 40°C

Electrical

- cULus wet location rated
- Easy-to-access wiring compartment
- System rated for long 50,000 hour life
- Efficiently delivers up to 105 LPW
- Optional Photocell (PC)
- Optional Microwave Motion Sensor (MS)

Optics

- Prismatic polycarbonate lens
- Delivers bright, white light and excellent uniformity
