CONTROL

THERMALAST BAGS

ControlIQ Thermalast liner bags are designed to enhance the effectiveness of perishable shipping systems for minimal additional cost.

- Routinely extend safe transit times of perishables by 25% - 40%
- Added performance often mimics the effect of the doubling of insulation thickness
- Use year-round or as a protocol for warmer shipping conditions and/or destinations
- Variety of stock sizes to cover a wide range of payload dimensions
- Custom sizing available for volume projects
- Thermalast bags can often pay for themselves several times over in shipping cost savings
- Increases effectiveness without increasing dim weight of packages, and can be used to shrink package size by reducing coolant requirements
- Effective with dry ice, gel ice packs and ice bricks

CURRENT STOCK SIZES

STOCK #	BAG W X H	QTY/CASE	LBS/CASE
TB16XI5-SAT	16" X 15"	250	9
