

Strap Connection
Counterweighted

Grip Connection
Counterweighted

- Powered lifting, rotating, and driving (up to 2.5 MPH).
- Quickly and ergonomically transport, dump and store drums (steel, plastic and fiber).
- Rotate 360° continuously in either direction, at 6 RPM.
- Grip: remote jaws grab drums 18-24" in diameter, with adjustable pressure gauge.
- Straps: secures drums manually, 14-24" in diameter
- Straddle: extended legs go under pallets, shelving, or on outside of drums.
- Counterweighted: ability to butt directly up to pallets, shelving, or other items.
- Standalone unit (no forklift required).
- Heavy gauge steel construction.
- Optional floor lock available (sold separately).
- Premium powder coat paint finish.
- Ships fully assembled, ready to use.
- Made in the U.S.A.
