

CREATE A TIGHT SEAL TO HELP
MINIMIZE LEAKS.

Stainless Steel Transport Covers

Combining Durability & Efficiency

Perfect for restaurants, hotels, and catering businesses, this steam table / hotel pan cover allows for efficient stacking of pans, optimizing storage space and organization. The overmolded silicone seal ensures a secure closure, preventing spills and maintaining food freshness. Additionally, these covers allow pans to fit seamlessly in insulated food pan carriers, making them an essential accessory for busy food service establishments.

Durable Stainless Steel Construction

- Made of heavy-duty stainless steel to replace need for single use foil or plastic wrap.
- Temperature range of -40°F to 420°F.

Tight Seal

- Overmolded gasket helps provide a tight seal to your Vigor steam table pans.
- When lid is applied correctly, the amount of potential leaks is minimized during storage and transport.
- Save money by not losing product due to spills.

Flat Construction

- Flat lid allows for seamless use in food pan carriers.
- Lids allow pans to stack on top of one another.

Welded Handle

Handle is welded in place to allow for a secure way to put on and remove the lid.

Removable Vent Closure

Vent allows steam to be released when needed.
