Notes & Details

This Waterloo deck-mounted faucet is the perfect solution when you need a dependable water fixture in your facility! Waterloo faucets provide the industry-leading quality you expect. With heavy chrome-plated brass faucet bodies, ceramic cartridges engineered for durability, and certifications from a wide range of national and local regulatory agencies, you can install this model with confidence. And to give you total peace of mind, it comes with a 3-year replacement warranty.

This faucet features a 3 1/2" long swivel gooseneck spout that provides a sleek look with plenty of clearance, while a 2 GPM aerator provides a consistent flow rate and minimal splashing. It boasts a set of 8" adjustable centers, while the deck-mounted design is easy to install with 1/2" NPT inlets.

This faucet uses ceramic cartridges, which provide a much lower fail rate than the compression cartridges widely used in the industry. In this design, 2 ceramic discs fit together to create a watertight seal when closed. This removes the need for a rubber seat washer, which is one of the most frequently replaced parts on a faucet. The sturdy lever handle design makes it easy to turn the water flow off and on.
