## Notes & Details

Install a convenient and useful water fixture in your business with the Waterloo wall-mounted mop sink faucet with 8" centers and wrist blade handles! Waterloo faucets provide the industry-leading quality you expect. This model features heavy chrome-plated brass faucet bodies and quarter-turn ceramic cartridges engineered for durability. This fixture is excellent for busy restaurant kitchens, school cafeterias, or bars.

This faucet features 8" centers with built-in service stops. It also has vacuum breakers that prevent water backflow. The wrist-action blade handles allow you to turn the water on and off using your wrists, reducing the risk of transferring harmful germs and making your faucet more sanitary. The upper wall support ensures this faucet is secured to the wall at all times, and the wall bracket is included. Additionally, the pail hook built into the nozzle provides extra convenience while cleaning.
