## Notes & Details

Create a convenient water filler station in your business using this Waterloo glass filler station with 8" glass filler! Made with high-quality 18 gauge stainless steel for outstanding durability, the drip pan is made to withstand daily wear and tear in high-traffic establishments. Plus, it comes with a splash guard to contain splashes or spills, which helps keep your workspace clean, sanitary, and mess-free. Additionally, the drip pan has a 1 1/2" IPS drain, and it is easy to install for a hassle-free user experience!

Providing 8" of clearance, the glass filler boasts plenty of room to accommodate all kinds of glassware, while its deck-mounted design and single hole base make it easy to install. With a dedicated glass filler, you can give your waitstaff more flexibility by placing it in the most convenient location for your workflow. An intuitive and familiar lever design makes it easy to use, too - just push the cup back against the lever and it will dispense from the nozzle. It's a great way to improve workflow and ensure all of your customers get a glass of clean, refreshing water. It installs using a 1/2" NPT male inlet.
