Notes & Details

This Waterloo 10" pre-rinse faucet riser is a perfect replacement for the one that came with your Waterloo mini pre-rinse unit. The riser provides added height for your faucet, which keeps the spray valve at an accessible location and allows greater range of motion. Additionally, this helps conserve space for more comfortable rinsing. Use it to replace a broken riser easily. This riser can also be used to allow a pre-rinse faucet to accept an add-on faucet.
