Notes & Details

This Waterloo 1.07 GPM pre-rinse spray valve is an excellent choice when you need to replace a broken valve or upgrade an old one! Designed to provide the industry-leading quality you expect, this spray valve has a heavy-duty body with metal construction to prevent leaks and keep up with even fast-paced dishrooms. It boasts a 1.07 GPM flow rate to blast away heavy soil deposits and ensure that glassware and dinnerware come out of the dishwasher clean and ready to use. It comes with a hold-down ring so that you can lock the valve into the on position for constant use, and it has a 7/8"-20 UNEF inlet.
