

Worksite Solutions

Mini-Flush

- Self-contained 23" wide flushing toilet for use in temporary offices, tool cribs, lunchroom trailers, railroad cars, boats, or any small space where a complete portable toilet won't fit.
- Dump valve included for easy servicing.

Part No. MF02-1000

PolyLift

- Designed for use at high-rise construction sites! The unit is easily lifted by crane and/or elevator.
- At only 33 in/84 cm wide, easy to maneuver through doorways and freight elevators.
- Optional roof not shown.

Part No. PL01-1000

Trailers

- Ideal for worksites where crews need movable restrooms.
- Built tough for off-road or highway use.
- Able to be lowered to ground level for easy use!
- Fully galvanized, 2" ball hitch and Flat 4 electrical plug connector.

Part No. TU01-1000 (Single Trailer)
Part No. TU02-1000 (Double Trailer)
