

FC-125B

BRUSHLESS DC MOTOR RECHARGEABLE WHOLEROOM AIR CIRCULATOR

The XPOWER FC-125B air circulator lets you go cordless without sacrificing power. With variable speed control over the 900 CFM output and a 360-degree rotational stand, you'll find plenty of uses for this device. Take it anywhere you need, inside or outside, for air circulation, ventilation, or drying.

Battery run times will vary, but are estimated at 2.8 hours at full speed and 18 hours at low speed. An LED battery life indicator lets you know how much battery life you have left, and it comes with 6' charging cables for both car and wall outlets. You can also use the USB outlet to plug in and charge your phone, tablet, or laptop.

- Plug it in to charge while it's running, or take it on the go in battery mode
- Great for outdoor use thanks to the powerful torque-packed sealed DC motor and durable PP housing
- Maximum versatility with variable speed control and a 360-degree rotational stand
- Minimize downtime via the built-in rechargeable battery with 6' charging cables for both car and wall outlets
- A convenient USB outlet lets you plug in and charge your phone and/or other smaller devices

SPECIFICATIONS

- An LED battery life indicator bar lets you know how much battery life you have left
- Battery run times will vary, but are estimated at 2.8 hours at full speed and 18 hours at low speed
- Reduce expenses by using the FC-125B instead of an air conditioner. The extended airflow and 360-degree rotational stand allow you to circulate air effectively to keep rooms cool
- Reduce heating bills by aiming it at the ceiling to circulate warmer air throughout the room
- Great for improving ventilation during projects or while drying surfaces

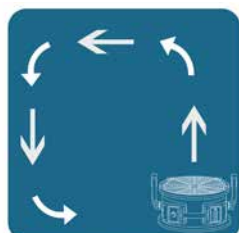

AIRFLOW DIAGRAMS

External rotor-motor and front grill design creates focused air flow that travels up to 120ft

Constantly recirculates air to create a gentle and consistent stream of air flow to shorten drying time

Bounce the air off of walls in smaller rooms so air reaches every corner

Point it downward to dry area around the fan up to 60 ft in diameter
