

FD-630D

DC Brushless Drum Fan

XPOWER's new FD-630DC Drum Fan is a perfect candidate for your ventilation needs in warehouse, barn, garage, or work-shop settings. The FD-630DC features a 1/2 HP brushless DC motor rated at 5,800 CFM while only drawing a maximum 1.8 Amps. A variable speed control allows you to set the airflow necessary for your application. A durable rack equipped with easy to roll wheels maximize portability while offering a wide range of operating positions. The FD-630DC is ready for your ventilating needs no matter how large or small the task.

- 24" Industrial Drum Fan / Barrel Fan
- Powerful 1/2 HP brushless DC motor with variable speed control
- Portable and easy to roll
